Introducing
EduBrisk

The teaching
technology for the
future schools

Enables school management to quickly restart effective teaching for their students.

Allows teachers to teach as easily and helps effectively as in a normal classroom and helps students to learn better than ever before.

And most importantly makes the parents stress-free about their child's education.

Discover extensive content based on VARK learning styles catering to four modalities of student learning which comes pre-loaded with

Content for KG to 12th Grade school students

Visual learners

Visual learners understand new information best when they can see it.

Auditory learners

Auditory learners understand new information best when they can hear it rather than see it.

Reading learners

Reading learners prefer information to be presented using words.

Kinesthetic learners

Tactile-kinesthetic learners understand new information best when they can feel or do it, i.e. when they can experience the learning.

BUILD Approach by EduBrisk

Brain Utilization in Learning & Development

At the core of our learning program is 'BUILD' a synergistic blend of Neurophysiology, Computer Science, Pedagogy & Andragogy and Cognitive Psychology which brings a powerful, wholesome environment.

EduBrisk learning programs are not mere content repositories, but are an ever evolving set of brain friendly, path breaking tools for...

- Students in 'Learning to Learn Effortlessly'
- Teachers in 'Learning to Teach Inclusively'
- Parents in 'Learning to Mentor Effectively'

The powerful AI-based Digital Learning Platform based on the principle of BUILD is highly process-oriented. It not only integrates the content but also the stakeholders for a comprehensive, personalized teaching-learning-mentoring experience.

Success Stories...

Mr. Gopakumar K

Principal - The Guardian Public School, Kochi

The biggest concern every teacher today faces is on how to cater to the individual needs of every student in the classroom. EduBrisk solves that concern once and for all.

Mrs. Shireen Francis

Principal - Delta Studies

It was a new Methodology introduced in the field of education. The students were able to memorize with ease in a Brain friendly manner.

Dr. Susan Mathew

Academic Director - NCS School Adoor

As the academic director of National Central School, Adoor, Kerala, On behalf of the management I would like to thank the EduBrisk team for ensuring uninterrupted teaching-learning for our students during the lockdown period. The entire team took great effort to motivate and train our heaters and students. Thank you EduBrisk Team for your continuing support.

Dr. Subhash Nair

Principal - Shatiniketan
Indian School, Qatar

EduBrisk is a scientific methodology and platform based on neuroscience, cognitive psychology and pedagogy. It empowers teachers to maximize their resourcefulness to help children bridge their cognitive gaps. Learning becomes effortless through the natural process of learning, understanding, and concept attainment at their own pace, while taking care of the individual differences among learners, EduBrisk acts as a transformational tool in the school.
